WELCOME

The Vannevar Bush Retreat on Deep Creek Lake is a quiet place in the woods in the mountains of western Maryland. Carnegie employees, fellows, and their families can swim, fish, row a boat, or just do nothing at all. The Retreat was completed in 1966 with funds donated by Vannevar Bush, president of the Institution from 1939 to 1955. The Retreat is designed to provide the simplicity and peacefulness that Dr. Bush believed was especially needed to revitalize the soul.

The Retreat is a property of approximately 35 acres with about 1000 feet of lake front. There is a Lodge with two bedrooms and a large central room, a smaller Cottage with three bedrooms, and four lean-tos and campsites.

Deep Creek Lake is the largest freshwater lake in the state; its 65 miles of shoreline offers fishing, boating, and swimming. The lake is full of trout, bass, pike, yellow perch, and pickerel. In the winter, there is downhill skiing at the nearby ski resort and cross-country skiing at nearby State Parks. The Wisp is the largest ski area in Maryland; the resort covers 220 acres of mountainside, with an elevation of 3,080 feet and a vertical rise of 600 feet.

**Camping**
There are four campsites. Each campsite is equipped with a lean-to and a fire pit with a grill top. There are two restroom facilities for all four campsites (one for men and one for women.) Each restroom is equipped with a toilet, sink, and shower. Drinking water is available from spigots near the bathhouse and the campers' parking area. **NOTE: Restroom is only open during the summer months May 15 – September 15. What to bring:

Everything you need to sleep, eat, cook, bathe, etc.

**Washer and Dryer**
The walkout basement under the Cottage contains a washer and dryer. All users of the Lodge and Cottage have access to the washer and dryer. When you use the washer and dryer, please do so at reasonable hour and respect the privacy of the occupants of the Cottage. The water is supplied by a well and the sewage goes to the septic system. Too much water usage could deplete the well and flood the septic field. Therefore, please limit your use of the washer. **Do not use bleach in the washer** – it is harmful to the septic system.

**The Utility Shed**
In the utility shed, located on the edge of the Lodge parking area, you will find canoe paddles, oars, sailing rigs, horseshoes, and other outside games.
You will also find simple tools, such as a saw, crowbar, hand axe, and splitting maul. Be sure to lock the shed when it is not in use.
ARRIVAL - OPENING THE LODGE

The lodge is equipped with outside motion lights. Do not be alarmed if you arrive at night; the lights will turn on as you approach the door.

After you enter the Lodge, in the front bedroom with the bunk beds, you will locate the fuse box in the closet. Turn on the switches for the refrigerator and hot water heater. These circuit breakers are clearly marked.

The hot water heater needs some time to heat after breakers have been switched.

The Lodge is heated by hot water running through floor pipes. In the colder winter months, set the thermostat to a comfortable setting (usually 68 degrees).

ARRIVAL - OPENING THE COTTAGE

After you enter the Cottage, in the middle bedroom closet you will locate the fuse box; turn on the switches for the refrigerator and hot water heater. These circuit breakers are clearly marked.

The hot water heater needs some time to heat after breakers have been switched.

The Cottage is heated by a propane boiler. In the colder winter months, set the thermostat to a comfortable setting (usually 68 degrees).

LOCAL ACTIVITIES

There are many fun and educational things to do around the Deep Creek area. The Retreat's 35 acres (as well as other nearby woods and parks) provide ample room for hiking and walking, and even mountain biking. The nearby ski resort, The Wisp, provides downhill skiing, while nearby State Parks provide cross-country ski trails (including rental of ski equipment), and snow mobile trails (snowmobiles cannot be rented - you must have your own). "Falling Water" (the amazing house designed by Frank Lloyd Wright) and Muddy Creek Falls and Swallow Falls are also nearby, as well as horseback riding and Youghgheny and Savage Rivers.

Directions from the Retreat to nearby State Parks are below:

Harrington Manor State Park (Muddy Creek Falls, Swallow Falls, cross-country ski trails, snow mobile trails, fishing, and hiking): Right onto US 219 North and left onto Meyhew Inn Road. Follow the signs to the Park. The ride is about 20 minutes.

Deep Creek State Park (boat launch, fishing, hiking, snowmobile trails): Right onto US 219 North to traffic light at Glendale Road. Turn right and follow the signs to the Park (you will cross the Glendale Bridge). Or, follow US 219 North further over the Deep Creek Bridge (near Wisp) and turn right onto Rock Lodge Road and follow the signs to the Park.
